Sullivan's groundbreaking design, while beloved now, had little impact upon design in New York or elsewhere in the 1880s. Indeed, Sullivan himself had little impact upon design in the 1880s. However, some of Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s. In the 1890s, Sullivan's designs were adopted by other architects in the 1890s, and Sullivan himself became more influential in the 1890s than he was in the 1880s.
